The Kirk Duncanson Fellowship

In order to commemorate the interest which Dr J J Kirk Duncanson (Fellow 1874 1913) had in the College, his widow Mrs. Isabella Kirk Duncanson, directed her Trustees to hold the whole residue of her estate for the purpose of providing a fund, the income from which to be used for the purpose of providing a Fellowship to be called "The Kirk Duncanson Fellowship for Medical Research." The Fellowship shall be awarded by the Council of the College from time to time, and subject to such conditions and regulations as the Council may appoint. The Trustees of the Fund are the sole judges of the amount of the grant to be made to the Fellowship from time to time.

Parkin Prize

Dr John Parkin, a Fellow of the College, who died in 1886, bequeathed to the College a sum of £1500 to provide a triennial prize for an essay on two aspects of epidemic diseases. As these two particular aspects are no longer in line with current medical concepts the Council is at present actively reviewing the detailed terms of the Bequest.

Dr Alexander Black Bequest

In the year 1923, intimation was received from the Trustees of Miss Anne Louisa Black of Castlebank, Cupar of a bequest of £1000 for the purpose of applying "yearly and in perpetuity the proceeds thereof in providing bursaries, or scholarships, or books for the Library or for any other or similar purposes connected with the College, the same to be connected in perpetuity with the name of her brother Dr Alexander Black, a former Fellow of the College, and to be termed the "Dr Alexander Black Bequest."

The Council has decided to apply the annual income to the purchase of special books for the Library to be marked by an appropriate book plate.

Jean Hunter Fund

Under the will of the Rev William Turner Hunter the Council of the College received in 1948 a sum of £500 in trust as a fund to be known as the "Jean Hunter Fund" The interest of the fund is to be used for the advancement of research in the treatment of nervous exhaustion—with special reference to the subject of hydrotherapy in relation to psychopathic conditions—by the provision periodically of a Prize for an essay on this subject. The Prize is open to graduates of Edinburgh University and to Licentiates of the Royal Colleges of Edinburgh, with priority to Fellows and Members of the Royal College of Physicians of Edinburgh, other things being equal, and the Prize shall be of the value of fifty pounds (£50) and shall be offered at such intervals as allow the necessary interest to accumulate. Should the essay be of such originality and interest the Council of the College shall at their discretion arrange for publication.

The Hill Pattison-Struthers Bursaries

The Hill Pattison-Struthers bursaries were founded by Dr Thomas Hill Pattison and Dr James Struthers. In 1888 the College received an endowment from Dr Pattison and in 1902 Dr Struthers added to the original endowment a further bequest. The purpose of the endowment was to assist extra mural students of medicine at Edinburgh The administration of the endowment was at the discretion of the Council of the College The original scheme approved by the College provided for one bursary in anatomy and physiology and a further bursary in clinical medicine both open to candidates for the Triple Qualification who had studied in Edinburgh The clinical medicine bursary was an immediate post-graduate award

With the closure of the Undergraduate School of Medicine of the Royal Colleges suitable candidates for these bursaries ceased to appear The Council therefore decided that the aims of the donors would be best fulfilled under present conditions by using the income of the fund to assist students who through financial reasons experienced difficulties in attending the Course in Internal Medicine organised by the Edinburgh Post-Graduate Board for Medicine.

Under the revised scheme which comes into operation in 1956 two bursaries of the value of £100 each are awarded annually Bursars are selected by the Council of the College who are advised by the College representatives on the Post-Graduate Board and by the Director of Post-Graduate Studies. In making the award a preference is given to Licentiates of the College and consideration is given to the need to maintain the international character of the Edinburgh Medical School

Bursar

William Denny Smith

Wood Bursary

The Wood Bursary is tenable for the period of the undergraduate course in Medicine at Edinburgh University and is at present of the value of £100 a year. The Bursary was founded by Dr Alexander Wood, a Fellow of the College from 1840-1884 and President from 1858-1861 to commemorate his father Dr James Wood and himself. The conditions of the Bursary were modified by the Educational Endowment Commissioners in 1935, but it is still awarded on a competitive examination in Latin, Greek, English and Mathematics as laid down in Dr Wood's will. The Bursary is normally awarded once every six years and a vacancy is advertised as it occurs. Under certain circumstances a bursary may be awarded to a student who has completed part of his medical course.

In 1954 the College received from Lieutenant-Colonel Ambuj Nath Bose, a Fellow of the College, a legacy to provide a prize to be awarded at the discretion of the Council for research in tropical medicine. The prize is to be awarded every second or third year.

James Mackenzie Medal

Mr Daniel McCallum of Stirling bequeathed a sum of money, the interest on which was to be used to purchase a Medal to be awarded from time to time at the discretion of the Council of the Royal College of Physicians of Edinburgh. Mr McCallum stipulated that the award was to be made to a doctor engaged in family practice, who in the opinion of the Council had made the most notable contribution to medical science.

William Norman Pickles

Clouston Memorial Trust

The Clouston Memorial Trust was founded in memory of the pioneer work by Sir Thomas Smith Clouston, who was instrumental in promoting a new Neuro-Pathological Laboratory to encourage research work in the Scottish Mental Hospitals.

The Executive Committee of the Scottish Mental Hospitals Laboratories decided at the time of the introduction of the National Health Services (Scotland) Act, 1948 that the future administration of the remaining assets of the Laboratories should be transferred to the Royal College of Physicians of Edinburgh, of which Sir Thomas Smith Clouston had been President. This was done so that the work already accomplished might be perpetuated.

The application of the income of the Trust Fund shall be at the discretion of the President and Council of the Royal College of Physicians in consultation with (i) Professor of Pathology of Edinburgh University (ii) Professor of Psychiatry of Edinburgh University and (iii) Physician Superintendent, Royal Edinburgh Mental Hospital.

The object of the Trust will be to promote interest and research in relation to psychiatric work in any of its aspects.

The President and Council are entitled to accumulate the free income until such time as the funds are adequate and also to receive donations to this Trust.

LIBRARY, RESEARCH LABORATORY, AND MUSEUM OF MATERIA MEDICA

The College Library

The Library of the College is the oldest medical library in Scotland. A few weeks after the foundation of the College in 1681 Sir Robert Sibbald gave to the College some 100 books to be the nucleus of a library. His gift was followed by many others and a system of regular purchases was instituted. Before the end of the seventeenth century a very good collection of the available medical literature had been assembled and the Library had become, what it has been ever since, one of the major activities of the College and the chief burden on its funds.

As a result of its long unbroken history the Library is particularly rich in the early sources of medical knowledge and possesses many rare and some unique books. It contains also over 1000 volumes of manuscripts for the most part connected with the founders of the Edinburgh Medical School.

The number of volumes in the Library is now over 150 000. The Library inherits a remarkable collection of unbroken runs of periodicals and all the important medical works are represented in some edition. At the present time 500 journals are received each year and a selection of the more important monographs is added to the Library. A list of accessions is issued quarterly. The scope of the Library has always been primarily medical. In 1953 agreement was reached with the Royal College of Surgeons whereby Fellows of either College have equal rights and privileges with regard to the libraries of the two Colleges. This has enabled duplication of books and journals to be greatly reduced and a much wider range of medical and surgical literature is now available to the users of either library.

Books are lent to Fellows resident in Great Britain and bibliographical information is supplied to all Fellows. Books are also lent to *Libraries* and Research Institutions under conditions approved by the Library Committee. As a result of a decision made at the Quarterly Meeting of the College held in May 1953 books can also be lent to registered borrowers who are not Fellows of the College.

Under the conditions of the Sydney Watson Smith Bequest the Library is able to supply persons engaged in research work with photo-copies and translations of medical articles needed for their research.

The Library is open for the issue and return of books from 9 a.m. to 5 p.m. daily and on Saturdays from 9 a.m. till 12 30 p.m. The Chief Librarian will be available for consultation from 9 30 a.m. to 5 p.m. daily and from 9.30 a.m. to 12.30 p.m. on Saturdays.

The Research Laboratory

The control of the Laboratory passed from the College to the University on 1st October 1950, following a decision of the Carnegie Trustees who were the

owners of the property at 2 Forrest Road. Thus there was brought to an end a notable chapter in the history of the College covering a period of sixty years, during which much valuable research work was accomplished and reporting facilities were afforded to very many over the length and breadth of the land. It is satisfactory to record that the premises continue to be used for research purposes and that the Histological Department is remaining at Forrest Road. It is hoped that the latter will be perpetuated under whatever form the Lister Memorial Scheme, to which the College was a generous contributor eventually takes and that its title will be such as will serve to commemorate the long and distinguished record of the Royal College of Physicians in research during the past sixty years. A history of the Laboratory has been compiled by Dr John Ritchie and was published in November 1953. It is available on request to Fellows.

Museum of Materia Medica

The Museum of Materia Medica, formerly kept at the College, was transferred in the year 1896 to the Pharmaceutical Society of Great Britain, 36 York Place, Edinburgh, where it now is. Fellows of the College have free access to consult the Collection at any time and Licentiates of the College and Students of Medicine have access to the Collection on producing an order to that effect signed by any Fellow of the College.
